

overview

Following recent legislative changes, concepts of gender identity and sexuality will be introduced in the classroom for the first time. For many parents, this can cause concern regarding the range of information covered and how this information may impact their children. We find that it's important to create a conversation with concerned parents to help them understand the importance of LGBTQ+ inclusive curriculum and how it can benefit all students. **Our certified QEDU trainers guide parents through the new curriculum and offer an inside look at how this information will be communicated to students. Parents will learn about queer identities from a developmental perspective.**

core topics

Parents will be provided with a detailed review of:

- What is LGBTQ+ Education?
- Assigned Sex
- Queer Health at School
- Benefits of Inclusive Curriculum
- Gender
- HIV/AIDS Prevention
- F.A.I.R. Education Act
- Sexuality
- Affirmative Parenting
- CA Healthy Youth Act
- Affirmative Language
- Community Resources
- Queer Identity
- Queer History at School
- Q & A

time and format

This presentation is approximately 1 hour in length. QEDU Educators are trained to provide this presentation on an individual classroom basis or assembly style depending on the needs of our participating organization. Please speak with a QEDU Outreach Coordinator about the best strategy for implementing this program for parents on campus.

tools to complete

This presentation utilizes a standardized PowerPoint Presentation. The classroom or assembly hall must have A/V equipment to ensure that our presentation can be properly executed. Students will be invited to participate in a learning activity and will be asked to use a pen and paper for the exercise.
